

# OBSERVATION D'UN ARBRE AUTOUR DE CHEZ TOI

## Comment décrire un arbre ?

Pour bien décrire un arbre, il faut observer le plus de détails possible : sa taille, sa forme, son tonc, son écorce, ses feuilles, l'endroit où il pousse, etc.

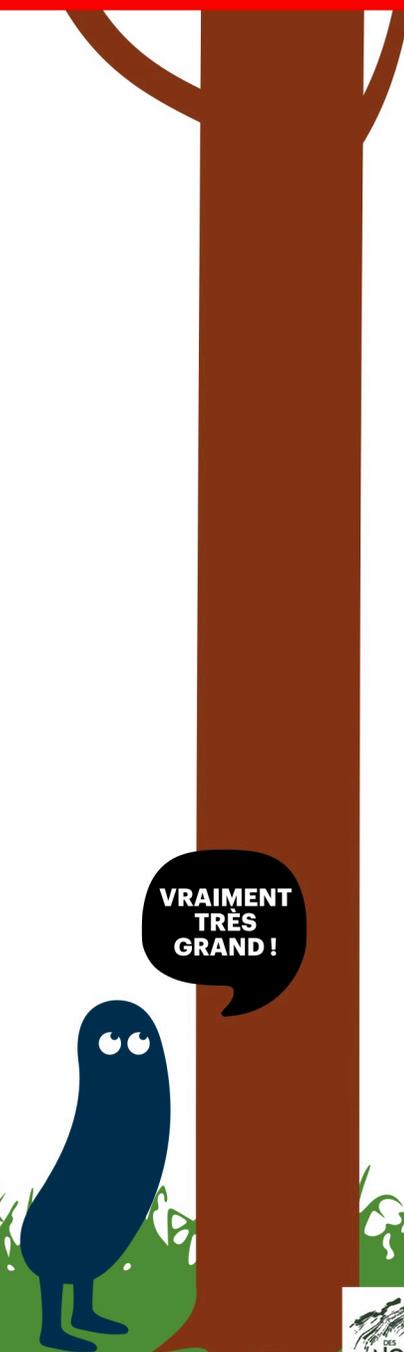

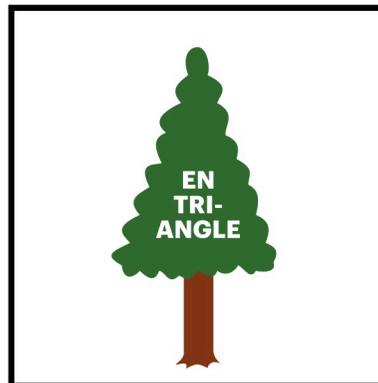

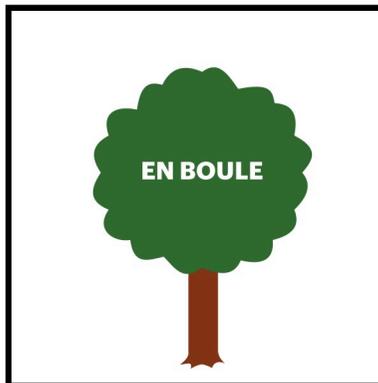

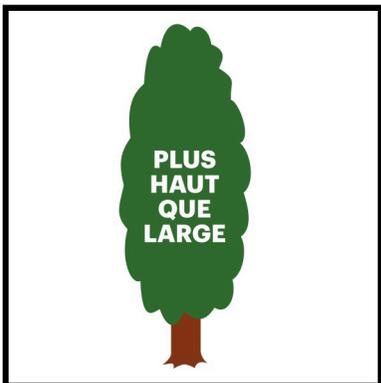

Les propositions qui suivent sont là pour t'y aider.

Imprime la fiche de description autant de fois que tu veux pour y associer tes observations !

## CONCERNANT SA TAILLE

## CONCERNANT SA FORME

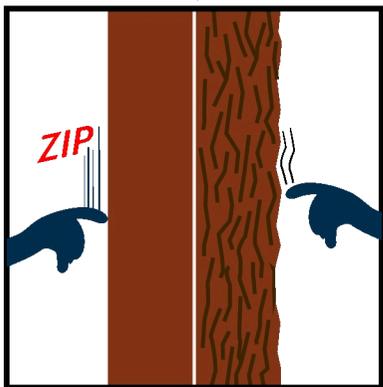

# OBSERVATION D'UN ARBRE AUTOUR DE CHEZ TOI

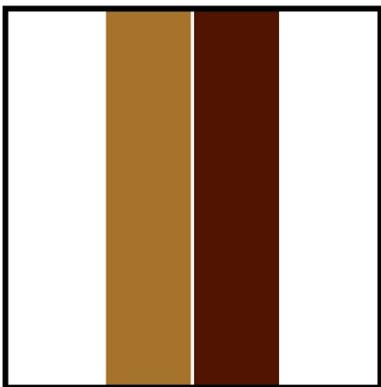

## CONCERNANT L'ÉCORCE

**IMPORTANT :** L'écorce que tu vas observer peut avoir plusieurs caractéristiques, notes les toutes !

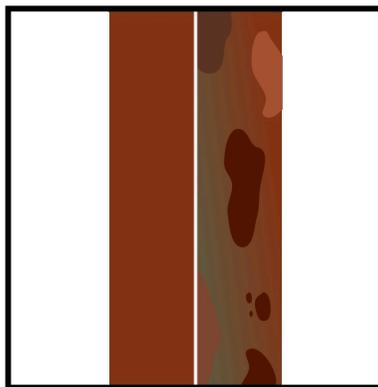

LISSE

RUGUEUSE

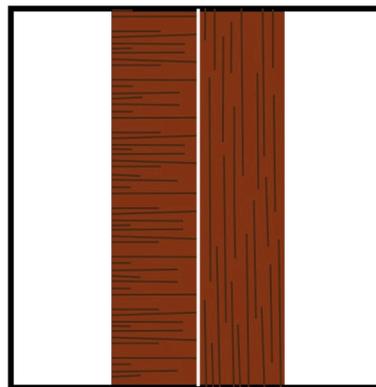

CLAIR

SOMBRE

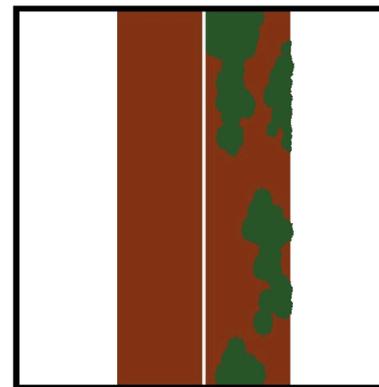

UNIE

DE PLUSIEURS  
COULEURS

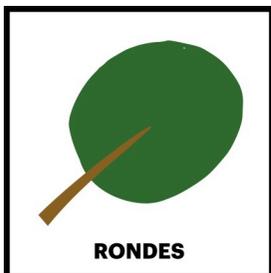

STRIÉE HORIZONTALEMENT  
OU VERTICALEMENT

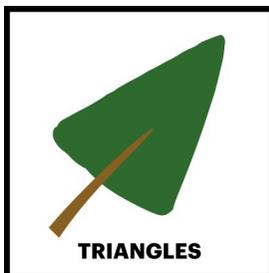

NUE

COUVERTE  
DE MOUSSES  
OU DE LICHENS
